 DESCRIPTORS: *Correlation techniques, *Ionosphere,
 *Computers, Meteorological data, Statistical functions,
 Meteorology.

A model of a device is described for use in the inves-
 tigation of the movements and dimensions of iono-
 spheric irregularities involving analysis of the cor-
 relation functions of the amplitudes of the reflected
 signal observed at three spaced points. The device
 computes simultaneously a points of the function in
 the time commensurate with the time the process is
